

# CAREER INSIGHTS

## DETAILS

Do you have high-performing students who are good with numbers and on course to get at least an A in A-level Mathematics? Are they looking to get a taste of what it is like working for an actuarial and investment consulting firm?

Then our **Career Insights** session will be just what they need! It will introduce them to working in a fast-paced team environment, where they will get a taste of what it is like working for a multinational consulting firm. The session is designed to provide an insight into Mercer; our business and our people.

Your students will meet some of our consultants who will give them an insight into what it is like to be an Actuary or Investment Consultant at Mercer. This is a great way to learn more about the roles available, whilst having some fun with interactive games along the way!

***Spaces are limited and are allocated on a first come first serve basis.***
